

Indiana University South Bend

Theatre Performance (Acting)

Students should bring a current theatrical resume and prepare two contrasting, contemporary one-minute monologues and a short 16-bar cut of a song.

Parents are encouraged to visit the school but will not be allowed to sit in on the audition process. Students and their parents will be given a tour of the facilities and will have a chance to ask questions about the program and speak with the faculty before auditions start.

Those auditioning for Theatre Performance and Musical Theatre Performance will first be brought in one by one to perform their monologue and song selections. After that time the Theatre Performance students are free to leave. The Musical Theatre Performance students will then be brought back in along with those auditioning for Dance to learn a dance combination.

Tips on preparing your entrance audition:

- 1) Be sure to pick two contrasting monologue selections for your audition.
- 2) Please make sure you bring your sheet music and it is clearly marked with starting and ending point.
- 3) Search out published plays from recognized playwrights with which you have experience for your audition selections.
- 4) Avoid monologues that narrate a story – be sure to find active monologues where you are speaking to someone and need something from them specifically.
- 5) Be sure all of your audition pieces are memorized and you have rehearsed them well in advance of your audition date.
- 6) Have fun in the preparation and the performance of your audition.

IUSB's Theatre Performance Program:

IUSB offers two degree programs within theatre performance: BA in Theatre with an emphasis in Performance; this is a more generalized theatrical degree path allowing students to attain a broad-based theatrical education with a focus on performance. BFA in Theatre with a Concentration in Performance; this is a more specialized degree path allowing the students to delve deeper in the art and craft of performance in order to prepare the students more fully for the professional world, or continue on to graduate studies.

Students entering the performance track will gain a thorough understanding of the craft and technique of acting through Stanislavski-based studio work and hands on training and production experience. Students will encounter the concept of theatre as a performance-based medium, historical reference point and literary tradition through our broad-based and comprehensive core requirements. They will also gain professional development experience through training in audition technique, business sense for the actor and instruction in professional practices and expectations.

Throughout their time at IU South Bend, students are expected to be active participants in the production and educational activities of the Theatre and Dance Department. Students are encouraged to seek out valuable summer experiences by applying to summer internship programs or auditioning for summer stock or other professional level theatres as a supplement to their academic year educational opportunities at IU South Bend. Students are also encouraged to attend audition conferences such as SETC (Southeastern Theatre conference), NETC (Northeastern Theatre conference) or other unified audition/theatre conferences to extend their education and networking opportunities.

An example of a theatrical resume (Performance):

Note: Please list the theatre/performance credits in reverse chronological order (most recent first, and so on)

Note: If any technical theatre experience is present, please list where indicated below. If not, please delete this heading from your resume.
